### NOTE FOR COLD WEATHER/WINTER CAMPOUTS

- **NO COTTON CLOTHING ON WINTER CAMPOUTS!**
- This includes blue jeans, cotton thermal underwear, cotton socks, cotton sweats & shirts
- Acceptable materials include wool, polypropylene, or micro fleece
- Several lightweight layers rather than a single heavy layer will be more comfortable
- Scouts are required to change ALL clothing prior to going to bed and therefore should have a set of clean, dry sleeping clothes (store in plastic bag)

This list contains clothing and equipment for both warm and cold weather camping and is to be used as a guideline and organizer. Not all clothing/equipment or items are required on each camping trip. Pack according to weather conditions and forecast, destination, monthly theme, and specific instructions from Patrol Leaders, Senior Patrol Leader, and Adult Leaders.
